## CHINA'S CONSTITUTION.

### Dramatic Changes.

THE PRESENT SITUATION.

(The following was communicated to the  
"Daily Telegraph" by their  
Peking Correspondent.)

Peking, April 13.

The Constitutional Convention, which I  
have already described in acid terms, sub-  
mits the results of its confidential delib-  
erations to-day. Seven im-  
portant points are covered.

By the first amendment the name of the  
future national assembly is changed to  
"Legislature," thus fore-  
shadowing a unicameral system.

The second and third amendments cover  
the abolition of the Cabinet and the estab-  
lishment of a Secretary of State, called  
"Kau-wueh," whose office is modelled  
upon that of the United States.

The fourth, and most important, lays  
down that the President shall be the  
supreme ruler.

By the fifth the Cabinet Ministers lose  
their titles as Ministers of State, and are  
called departmental chiefs.

The sixth amendment deposes the legis-  
lature from any voice in the making of high  
appointments or the conclusion of foreign  
treaties.

The seventh establishes a high advisory  
board, with which the President will ar-  
range all financial matters.

There is not the slightest doubt that  
these startling changes were unanimously  
passed, the most important being the  
secretaries of the President's office. A  
cursory knowledge of politics must convince  
anyone that this new view of statecraft,  
enunciated in language associated with the  
book of Genesis, is too simple and arbitrary  
even for China. It will "fortify serious  
students in the belief that the final collapse  
is brought still nearer. Anyway, the  
ground is now thoroughly cleared, and  
the responsibility concerning the future is  
irrevocably fixed.

## LABELLING THE GERMAN CROWN PRINCE.

As telegraphed by Reuter at the time,  
two more writers, Dr. Erich Ziegler and  
Herr Karl Schmidt, were sentenced on  
April 5 to six weeks' confinement to a  
fortress for attacking the Crown Prince  
in an article entitled "Letters of a Sentimen-  
tal Flapper of a Noble Family."

Although the sentences are light as com-  
pared with those recently passed in other  
cases, the Progressive Press describes them  
as regrettable, and the "Vossische  
Zeitung" published a very outspoken  
editorial article, which opens with the  
famous observation: "If Frederick the Great  
or Voltaire" "am of the opinion of  
Epictetus regarding satire. If people speak  
ill of you, and it is true, study to improve;  
if false, laugh at it."

The "Vossische Zeitung," observes that  
the Crown Prince is too young and too in-  
experienced to adopt Frederick's principle,  
"but it will scarcely have escaped his  
notice that the popularity of rulers and of  
their heirs has never been enhanced by the  
prosecution of their critics." It also says:  
"The conception of the majesty has been  
extended to members of the reigning  
family, but if they are to be specially  
protected, by law it is the more necessary  
that they should also exercise special  
reserve. If one side fails to keep a contract,  
the other side cannot be expected to do so  
either."

The article concludes: "Persons now  
plotting or destined in future to plot the  
deposition of the ruler require special pro-  
tection, but only certain protection is  
required, rather against thought-  
less and unscrupulous sycophants than  
against critics, however anonymous and  
slandering. What is wanted is truth."

the back, the parts with

## BUSINESS NOTICES.

### Exclusive Agent Wanted.

\$2,000 to \$5,000 Yearly Profit.

We want a man who doesn't think \$2,000 to \$5,000 per year too much to earn.  
We want a man who can develop in this country a business already established.  
If you are seeking an opportunity of that kind.

### You Are The Man We Want

The Chicago Ferrottype Co., of Chicago, U. S. A., the originators of one minute  
photography, desire to expand their business in China. They want the services of an  
exclusive agent who will devote his whole time to the selling of their products and to  
the development of business throughout China.

This agent will be given sole and exclusive selling rights, full protection in his  
territory, and co-operation from the manufacturers for the success of the agency.  
We want an aggressive man who knows the value of advertising, correspondence  
and all modern methods of securing orders by mail and demonstration.

Our agent will be required to handle a complete stock of our one minute picture  
machines and supplies so that he can fill orders promptly.

We will further require our agent to invest about \$2,000 for a supply of our  
goods, and these will be sold at a substantial discount allowing a big margin of profit  
to the agent.

### The "Mandel" One Minute Cameras

Are world-renowned and are now being advertised in leading export journals,  
magazines and newspapers throughout the world.

The "Mandel" cameras and positive post cards represent a progressive step in  
photography. By the new process of making photographs, plates, film, printing,  
dark room and all other usual camera accessories are entirely eliminated.

It requires no exceptional ability nor experience for anyone to make successful  
pictures with the "Mandel" Camera.

We manufacture all the supplies for operating our cameras, thus the supply  
business alone will create enormous sales and profits for our agent.

The market is unlimited and the profits to be earned by our agent will be  
determined largely upon his own energy and business ability.

If you believe that you can meet all the requirements as set forth in the  
foregoing announcement, write without delay, giving your age, business, experience  
and all particulars that will assist us in deciding if you are the man who will profit

## HONGKONG TIDES.

The tide-table given below has been compiled at the National Almanac Office in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Police Basin at the Tsim Sha Tsui during the years 1897-1903.

The zero of the table corresponds with the zero of the sounding in the Admiralty Charts which has been found to be 4 feet 3 inches below mean sea level.

To obtain the depth of water on the tide gauge, add the height of the tide to the depth of the sounding in the Admiralty Charts, and the result will be the height given in the table.
